

INDUSTRY CERTIFIED INTERNSHIP

CENTER OF EXCELLENCE IN EV TECHNOLOGY

Embark on an exhilarating internship experience delving into the forefront of mobility with Electric Vehicle (EV) technology. Immerse yourself in the automotive industry, as you delve into the intricacies of EV fundamentals, high and low voltage systems, maintenance techniques, and cutting-edge car connectivity. This opportunity offers you an in-depth understanding of the future of transportation, shaping your expertise in the dynamic world of electric vehicles.

INTERNSHIP MODULES:

- In-depth exploration of the Automobile Industry and EV history.
- Fundamentals of Electric Vehicles and their advantages.
- Advanced High Voltage Systems and cutting-edge battery developments.
- Essential Low Voltage Systems and safety measures.
- Effective Periodic Maintenance Service for optimal EV performance.
- Connectivity in Cars and its applications in EVs.
- Developing Behavioral Skills and upholding industry ethics.

INTERNSHIP HIGHLIGHTS:

- Industry-expert instructors.
- Hands-on practical sessions and case studies.
- Interactive group activities and networking opportunities.
