Two Days Workshop on Fundamentals of Deep Learning Models with Accelerated Computing

Boston-RVCE CoE in AI Research and Business Solutions has organized the two days workshop on Fundamentals of Deep Learning Models with Accelerated Computing on 9th and 10th March 2023.

12 Faculty members across the different departments of RVCE, along with 10 UG students from the department of AIML participated in the workshop.

Krishna Mouli R, Program Manager of Data Science at *Boston* IT Solutions India was the resource person for the workshop.

The workshop focused on Intel's one API toolkit and a Hands-on session on Heterogeneous computing. It also included Deep Learning with Poplar Software and Computer Vision tasks with Multiclass CNN Models.

The workshop was well appreciated by all the participants and as per the feedback received from participants, it was an excellent learning experience. The workshop helped them understand the current state and applications of Deep Learning models with accelerated computing.
