

RVCE got AAA+ Ranking in South India according "Career 360 survey 2013".

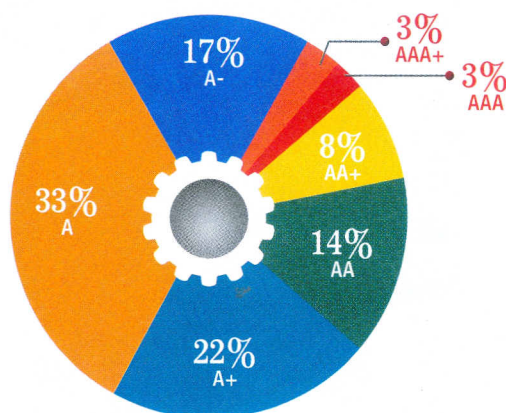

KARNATAKA

The IT capital of India, Bangalore has various industries particularly in the field of electronics, software, and biotechnology. The state has more than 200 engineering colleges that feed the demand of technical personnel, mostly in the services sector. The recent years have seen a growth in colleges offering disciplines such as Biotechnology, and Information Science. Unique offerings include Environmental Engineering, Mechatronics, Construction Technology and Management, Ceramics and Silk Technology. The most preferred among engineering branches are: Electronics, Mechanical and Computer Science. There are two examinations (KCET and COMEDK) in Karnataka through which admissions are possible in the state.

NOTE: Only 59 out of the 206 rated colleges are presented. For the full list visit www.engineering.careers360.com

HOW THE COLLEGES STACK UP
