VIII SEMESTER INTERNSHIP GUIDELINES

The following general guidelines for the internship/project have been formulated by keeping the interest of students, the recruiters and the institution

The internship/project work carries 18/20 credits as per autonomous scheme to fulfil the Institution/University norms.

1. Project / internship in an organization is permitted only if the student has full time JOB offer in the same organization and it is mandatory for the students to accept internship offer if recruited organization offers internship.

2. If the organization in which students are placed is not providing internship, such candidates should take up project in the college and they are required to contact Department for further process, however such students can do the internship in Public Sector, Research & Development organization and Government Sector

3. Students having only internship offer with possibility of conversion to full time job after competition of internship are also permitted to take the internship in the organization.

4. In the event of internship carried out in Industry: In the case of industrial project/internship, a single student may be allowed to work as it would be a sub component of the part of bigger activity in the organization. The specific approval on the topic/area of work from the department/institution is necessary before starting the work. The candidates can contact the companies for topic and should get approval from the Department. The faculty advisor will be allocated from the college and there will be an associate advisor from the industry for the entire project for continuous internal assessment and to meet the requirements from both sides.

5. Simple project involving only data base/web related application is not acceptable (for circuit branches)

6. Project involving use of simulators should have coding in a scripting language while the simulator is used only as a front-end tool (for circuit branches)

7. The project team is required to demonstrate the project work carried out during the semester end examination in the department.

8. There will be five interim presentations on the work during the internship/project, the schedule will be provided by concern departments.
