

Centre Of Excellence in RVCE - Morris Garage-Centre of Excellence in Electric Vehicle Technology (EVT)

Internship Modules for Engineering students

1. In-depth exploration of the Automobile Industry and EV history
2. Fundamentals of Electric Vehicles and their advantages
3. Advanced High Voltage Systems and cutting-edge battery developments.
4. Essential Low Voltage Systems and safety measures
5. Effective Periodic Maintenance Service for optimal EV performance.
6. Connectivity in Cars and its applications in EVs.
7. Developing Behavioral Skills and upholding industry ethics

INTERSHIP HIGHLIGHTS:

1. Industry-expert instructors.
2. Hands-on practical sessions and case studies.
3. Interactive group activities and networking opportunities
