

Department of Artificial Intelligence and Machine Learning

A Report on Technical Webinar on “Generative AI and LLM”

Department of Artificial Intelligence and Machine Learning, RVCE has organized the Guest Lecturer on “Generative AI and LLM” on 4th August 2023, for 2nd Year AI&ML Students, and Shri Lavanya Basavaraju Research Data Scientist AVP Bank USA was the expert speaker for the talk. The lecture was attended by 60 students and 6 Faculty members of the Artificial Intelligence and Machine Learning Department.

Dr. Sathish Babu HoD Department of AIML formally welcomed the speaker and introduced her to the students and Lavanya Basavaraju is Alumnus of RVCE

The speaker gave insights into how big tech companies like Google Facebook using Generative AI and LLM to boost their business and how it is going to change the complete environment in coming days. The speaker talked about research and where actually this topic got generated and she also shared some original research papers, from where this technology kicked off.

The speaker talked about the various challenges like security issues, bias, that may come using this generative AI and LLM and how the companies are working towards overcoming those challenges.

Along with Q&A, the speaker shared about insights of different problem students, where students can dwell into and get some good experience.

As per the feedback received from students, it was an excellent learning experience, and the lecture helped them understand the current state, applications, and future of Generative AI and LLM.
