Half-day industry workshop on Intel's one API Toolkit

Boston-RVCE CoE in AI Research and Business Solutions has organized the half days workshop on Fundamentals of Deep Learning Models with Accelerated Computing on 31st March 2023. The workshop was focussed on first-hand experience using accelerated computing platforms to develop high-end and scalable applications, enabling faculty members to guide students to take up innovative projects and research works on new-generation technologies.

Inauguration of the workshop was presided by, Mrs.Laxmi Nageswari Global Head of AI Education, Boston Ltd. Bengaluru, Dr. K.N. Subramanya Principal, RVCE, Dr. B. Sathish Babu, HoD AIML, faculties, and students of AIML branch

30 Faculty members across the different colleges participated in the workshop.

Krishna Mouli R, Program Manager of Data Science at *Boston* IT Solutions India was the resource person for the workshop.

The workshop was well appreciated by all the participants and as per the feedback received from participants, it was an excellent learning experience. The workshop helped them understand the current state and applications of Intel one API Tool kit.
